

Product Information Sheet

Sequential Logic Card

This practical resource introduces students to sequential logic through a range of practical activities.

The card is designed for use with the Electronics Study Trainer (320-00).

Practical activities based around this card are available within the digital curriculum materials provided with the Electronics Study Trainer.

The card may also be used with our optional cloud-based software. This contains theory presentations, investigations, and assessments, which link directly to the practical activities carried out using this resource.

The Card Includes the Following:

- D-type flip-flops (x3) with LED indicators
- J-K flip-flops (x3) with LED indicators
- 2-input NAND gates (x2) with LED indicators
- 2-input AND gates (x2)
- Switched faults for fault-finding activities

Practical Tasks Include the Following:

- Investigating a D-type flip-flop
- Investigating a J-K flip-flop
- Binary counter operation
- Frequency division
- Shift register operation
- Ring counter operation
- Testing and fault-finding sequential logic systems

Items Included:

- Circuit Card

Other Items Required:

- Electronics Study Trainer (320-00)
- Digital Multimeter
- Storage Case

General Information:

Card Dimensions:
160 x 100 x 20 mm (W, H, D)

Packaging:
Orders for multiple 320-series cards are shipped in storage boxes.

Shipping Volume:
Single card: 0.001 m³
Storage box: 0.015 m³

Shipping Weight:
Single card: 0.2 kg
Storage box: 0.5 kg

Please contact LJ Create for estimated shipping volume and weight for your specific order requirements.

Order Code: 320-42
