

Product Information Sheet

Plant Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheet to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

The Plant Kit includes resources to explore the structure of plants, as well as a hydroponics lab to investigate the conditions required for plant growth.

Learners can test and hypothesise the best conditions under which plant growth is most successful using the control hydroponics set.

Typical Practical Tasks Include:

- Plant Structures
- Basic Needs of Plants

Items Included:

- Hydroponics Set (includes 3 test growth tubes)
- Lima Beans Pack *
- Craft Knife
- Black Out Card *
