

Product Information Sheet

Measurement Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheets to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

The items included in this experiment kit provide a resource that will introduce the concepts and skills associated with scientific measurement.

Typical Practical Tasks Include:

- Measurement
- Density of Liquids
- Density of Solids
- Errors and Tolerance

Items Included:

- Caliper Gauge
- Vernier Caliper
- Rectangular Blocks
- Ruler 300mm
- Paper Towels
- Relative Density Bottle
- Funnel
- Density Samples
