

Product Information Sheet

Sectioned Manual Gearbox Trainer

This trainer provides the instructor with a complete manual gearbox for group or whole-class demonstration.

It is mounted on a moveable, heavy-duty steel frame, which allows it to be easily transported between workshop and classroom.

The gearbox is operated by hand and is sectioned so that all moving components can be seen and the way they interact can be observed.

This resource is supplied with a manual containing practical tasks and activities.

The trainer can also be used in conjunction with our optional cloud-based software, which offers online interactive theory presentations, investigations, and assessments, which support the practical activities, carried out using this resource.

Trainer enables demonstrations of the following:

- The position and mounting of all manual gearbox components
- Gear selection using selector lever and selector forks
- Reverse gear selection using selector lever and selector fork
- Differential
- Clutch housing
- Speedo drive

Items Included:

- Trainer
- Practical activity manual

Other Items Required:

- Automotive workshop tools
