Product Information Sheet

Fossils Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheets to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

The fossils kit offers a range of sample fossils for examination and investigation of different fossil types and in which period they are likely to have been formed.

Used in conjunction with the \square Create Science Content, students will refer to a Fossils Fact File and determine the fossilization process and era for each sample.

Typical Practical Tasks Include:

Fossils
