

Product Information Sheet

Soldering and Desoldering Station

Used for assembly and repairs of the Electronic Circuits project kits the soldering kit has the following features:

Soldering Iron Features:

- 60W Power Rating
- 480°C Temperature Range (US: 896°F)
- Heat Proof Silicone Rubber Cable
- 230V Supply Voltage (US: 110V)

The fume extractor uses a brushless fan to remove the smoke, and noxious fumes, created from soldering.

Fume Extraction Unit Features:

- High efficiency, low noise fan
- Easy to replace carbon filter
- Quickly removes smoke and fumes
- Reflector hood diverts air away from working area

Soldering kit includes:

- Soldering Station
- Fume Extractor
- Spare Filter
- Solder Remover
- Solder Wick
- Solder
- Anti-static Soldering Mat and Wrist Strap

Order Code: SLD-01
